Monthly Auto Sales - February 2018

Automobiles

Almost all automakers posted a healthy vehicle sales for the month of February 2018. In 2W space, BAL reported 31% in total sales while overall domestic sales increased 35%. RE, TVSL and HMCL reported a growth of 25%, 33.5% and 20% respectively. In the CV space, ASHLEY recorded 29% increase in total sales. M&M and TAMO reported 28% and 36% growth in CV sales during the month, fuelled by robust infrastructural developments, fresh tenders in car carriers, coal movement and the petroleum sector. In PV space, continuing the growth momentum, domestic sales of MSIL grew 13%. The compact car segment comprising the Swift, Baleno, Ignis, Celerio and Dzire models led the sales blitz up 39%. The new Swift had received 40,000 bookings before its rollout early February and along with the earlier model sold 14,445 units during the month ranking fourth in the pecking order in the Top 10 list of cars sold during the month. The Baleno has already been a frontrunner model for the carmaker selling 17770 units during the month. With the Swift production being shifted to Gujarat, the Baleno has more production capacity available at the Manesar facility. Its waiting is down to 8-12 weeks easing pressure at dealerships as well. The utility vehicle segment came next with an upswing of 14%. The Mini growth however remained flat at 2%. The Ciaz sedan continues to de-grow at 17%. A reason for this is the high GST rate enforced on hybrid cars. Tata Motors' domestic sales of PV were up 45%. This uptick came on the back of its new models - the Tiago, Tigor, Nexon and the Hexa that have been raking the numbers. Its passenger car segment posted a growth of 17% while the UV segment faced a step up of 165%. M&M remained laggard in the industry with sales growing 8%.

Other information

- Threatened with a 10% drop in capacity utilisation in tyre production in the current quarter due to the continuing crunch in carbon black, Automotive Tyre Manufacturers Association (ATMA) members have offered to pick up the entire stock available in the country. The statement from Atma came in the wake of carbon black manufacturers' assertion that there was no shortage and production was in surplus of domestic demand. ATMA has asked the carbon black manufacturers body to reveal the stock that is available for offtake.
- The Indian tyre industry has asked the government to allow tyre industries to import carbon black on duty free basis, waive the anti-dumping duty on import of the product from China and regulate exports to overcome its shortage in the market.
- The crunch in domestic availability of carbon black has reached such an extent that several domestic tyre companies have been forced to shut down units in the recent past, the Automotive Tyre Manufacturers Association (ATMA) has stated.
- Tractor sales in India will hit a record in the current fiscal but moderate in 2018-19, according to a report by India Ratings and Research (Ind-Ra). The industry has already recorded strong volume growth of 16.6 per cent with total domestic volumes sales of 6,59,170 tractors in the April-January period of 2017-18, the credit rating agency said.
- Electric vehicle (EV) sales in India are expected to witness a double-digit growth till 2020, fuelled by government measures for the sector and reducing battery prices, among others, says a report by Assocham and global advisory services firm EY.

 Mahindra & Mahindra which plans to invest Rs 800 crore towards product development and capacity expansion in its electric vehicle business, aims to double its portfolio and bring on road at least four new models in the segment in the next three years. Given that incentives under the FAME (Faster Adoption and Manufacturing of Electric Vehicles) Scheme are expected to be there for the duration, the company is predicting massive potential to grow electric vehicle sales.
